Lead by Value and Drive Your Value

Yutong van adopts the design concept of passenger cars.

It is forwardly engineered according to the standards of high-intensively operated buses,

adopts a multi-scenario customized, modular and commercial van platform,

with long service life, more reliability and durability, low cost and high comfort,

satisfies the diversified needs of customized passenger transport, business reception and tourism commuting,

to create greater value for customers.

4 Leading Advantages

◇ Aesthetic design

Brand-new modeling, gentle appearance
Modern aesthetic styling, demonstrating the true fashion tendency

◇ Extremely safe and reliable

Intelligent safety system, verified by three tests in full dimensions
Reliable and durable guarantee, offering intimate accompany

◇ Simple, luxurious and comfortable

Super-large space, fashionable and simple interior trim
Precise driving and control, providing a unique experience

◇ Efficient operation

Intelligent operation and management, supported by forward-looking technologies
Strong power performance, ensuring efficient operation

Aesthetic design

Brand-new modeling, gentle appearance
Modern aesthetic styling, demonstrating
the true fashion tendency

◇ Business vehicle style

Adopting the latest business design concept in the industry, the overall appearance is gentle, steady and graceful.

◇ Streamline modeling

Wing-shaped grille on the front wall. Smooth waistlines on both sides run through to the rear. Tail lamps adopt double-line waterfall vertical strip thick-walled lens, which are exquisite and eye-catching, and the U-shaped rear electroplated trim shows more elegance.

◇ Aesthetic lamps

Headlamps feature greeting light function. Barrel-type LED lamps provide wider lighting coverage. Lighting safety (C-NCAP) reaches 5-star level.

◇ Electric rearview mirror

Electric rearview mirrors on both sides are integrated with electric adjustment, electric heating and other functions. At the same time, BSD blind spot assistance, 360° panoramic camera, etc. are optional, making operation more convenient and driving and riding safer.

Simple, luxurious and comfortable

Super-large space, fashionable and simple interior trim
Precise driving and control, providing a unique experience

◇ Super-large interior space

The interior space of V6 is super-large with inner height up to 1,890mm, and the aisle width at the passenger seat armrest reaches 340mm, which makes it convenient for passengers to walk in the vehicle, creating a more comfortable riding experience.

◇ Comfortable and safe seat

Outfitted with good curve support and wrapping performance, it can effectively relieve travel fatigue. The standard seat backrest is adjustable in a large angle. Multi-gear adjustable armrest, safety belt alarm function and USB charging interface are optional.

◇ Rapid cooling/heating A/C

A/C airflow can be controlled in different zones, and driver's zone is cooler, which can alleviate the driving heat. The passenger zone is equipped with central A/C type normally open air outlet and adjustable air outlet, which has a soft effect and allows passengers to immerse themselves in a comfortable environment and feel better. At the same time, it has an intelligent memory function.

◇ Sliding window (the last glass at left and right sides, optional)

Sliding windows are optional, with better sealing and reliability. They can be freely opened and closed to meet the ventilation requirements in the van, which can realize quick air change and circulation, with convenient and fast operation.

Simple, luxurious and comfortable

Super-large space, fashionable and simple interior trim
Precise driving and control, providing a unique experience

◇ One-button start

The standard intelligent key with one-button start function can unlock and lock the passenger door remotely, which greatly facilitates the driver's operation. At the same time, it is equipped with passive entry function (optional), which makes it more convenient for the driver to operate and avoids frequent taking out of the key.

◇ Driver seat with shock absorption

The driver seat is equipped with standard six-way adjustment and optional mechanical shock absorption configuration, which can effectively relieve long-time driving fatigue. The optional preset force limit seat belt makes driving safer.

◇ One-button window lifting (optional)

Anti-pinch safe electric windows, one-button regulation, more convenient to open and close, enjoying the passenger car experience.

◇ HD central control screen (optional)

Optional 12.3-inch floating HD central control screen, wonderful and delightful audio and video entertainment, and integrated 360° HD image function (optional).

Extremely safe and reliable

Intelligent safety system, verified by three tests in full dimensions

Reliable and durable guarantee, offering intimate accompany

55%
High-strength Steel

1500Mpa
Thermoformed Ultra-high Strength
Steel Plate

50km/h
Frontal Rigid Collision Verification

◇ Multiple verification tests

The vehicle has undergone comprehensive, rigorous tests under severely hot, severely cold and high altitude conditions. Reliability, trafficability and durability of the vehicle

◇ High-strength robust closed-ring structure

The vehicle body adopts high-strength robust closed-ring structure, which can ensure the maximum survival space of passengers under extreme state and make safety even better.

◇ Special seat, 50km collision qualified

High-strength steel seat frame, which can meet the strength and damage requirements of 50km dynamic collision (standard seat only) to ensure safe mobility.

Extremely safe and reliable

Intelligent safety system, verified by three tests in full dimensions

Reliable and durable guarantee, offering intimate accompany

- ADAS (advanced driver assistance system)
- Latest generation Bosch 9.3 ESP
- Blind spot detection (BSD)
- Lane change assist (LCA)
- 360° HD panoramic view

Yutong vans has gone through the harsh tests of severely hot, severely cold and high altitude. Whether in the scorching sun or cold winter, whether on a plain or steep plateau, Yutong vans can move forward steadily and unimpededly.

◇ Industry-leading driving assistance

ADAS (optional) can assist the driver to drive in the safest state for all driving scenarios at all times. The latest Bosch ESP9.3 is adopted to cope with various road conditions and make the driving safer and more convenient.

◇ Tire pressure monitoring

The standard version is equipped with an active tire pressure monitoring system to detect the tire pressure and temperature in real time and give alarms for abnormalities. At the same time, it has the function of tire pressure self-calibration. The user can replace the tire by himself/herself, the automatic calibration of tire pressure can be realized after driving at a speed above 35 km/h for a period of time.

◇ Auto wiper

The vehicle is equipped with automatic wipers, which can automatically adjust different wiper speeds according to the amount of rainfall outside, ensuring good sight and driving safety.

◇ Radar alarm

4 embedded reversing radars are more beautiful. Meanwhile, 2 front radars are optional. The radar obstacle area is displayed in sections on the instrument, which is more intuitive, and the volume of alarm prompt tone can be adjusted.

Efficient operation

Intelligent operation and management,
supported by forward-looking technologies
Strong power performance, ensuring efficient operation

◇ High-performance engine

2.3T diesel turbocharged engine, featuring powerful performance with maximum power 163 HP and maximum torque 400N·m.

◇ 6MT manual transmission

Longitudinal rear-drive 6MT transmission, in combination with efficient remote flexible shaft control, making gear shifting easy, efficient and fuel-saving.

◇ 9AT automatic transmission

9AT transmission is adopted, with the highest efficiency up to 97%. Electronic shifting is configured, with millisecond shifting time and quick response, bringing stable and smooth driving experience.

◇ Intelligent OTA (Note: Subject to local network compatibility)

The intelligent electronic and electrical architecture platform of the whole vehicle is compatible with Yutong intelligent OTA platform, which can conduct OTA upgrade, repair faults remotely and conveniently, and improve the attendance rate of vehicles.

◇ IoV system

Get informed of the vehicle state in real time, manage vehicles intelligently, improve the using experience, realize comprehensive safety management of people, vehicles and roads, and improve operation efficiency.

Who are we

Leading global bus supplier, world's top-selling bus brand

- ◇ 5 major production bases
- ◇ Total factory area over **3.59 million** square meters
- ◇ Daily average production capacity up to **445 units**
- ◇ Maximum daily production capacity of new energy buses over **375 units**
- ◇ Product length ranging from 5m to 18m, covering segments such as coaches, buses, commuters, school buses and special vehicles
- ◇ Cumulative global sales volume over **170,000 units**

Our mission

To bring better life and drive your value

- ◇ Save **58,919 liters** of fuel per year
- ◇ Reduce NO emissions by **9,290 tons** per year
- ◇ Reduction of carbon emissions by more than **1,600,000 tons** per year
- ◇ Reduce PM2.5 emissions by **193 tons** per year

Vehicle Configuration

Specifications	Engine	Dongfeng DDi23
	Rated power (kW/rpm)	120/3500
	Rated torque (N.m/rpm)	400/1500-2750
	Displacement (L)	2.298
	Emission standard	Euro VI/V/III
	Engine	Inline four-cylinder, electronic high pressure common rail, turbocharged and intercooled diesel engine
	Fuel type	Diesel
	Drive	Front-engine, rear-wheel-drive
	Number of seats (driver's seat included)	13+1 seats; 14+1 seats
	Dimensions L*W*H (mm)	5990×2090×2650
	Wheelbase (mm)	3850
	Permitted GVW (kg)	4400
	Maximum gradeability (%)	40
	Axle	Front disc and rear disc (front independent axle and rear rigid axle)
	Suspension	Front independent suspension, rear mono-leaf spring
	Fuel tank	80L plastic fuel tank
	Steering	Hydraulic
	Tire	195/75R16C

Configuration description

Safety	ESP (including ABS ASR)	●	
	Three-point seat belt as standard	●	
	Turn off auto-unlocking	●	
	Rear parking radar	●	
	Front parking radar + keyless entry function (connected to 12.3 inch integrated control display)	○	
	Driver airbag + pretightening seat belt	○	
	Front passenger airbag + pretightening seat belt	○	
	Speed-sensing auto lock (20 km/h)	●	
	Intelligence	Lane departure warning and collision warning	○
		Driver drowsiness and attention warning	○
